

Beaumont & District Agricultural Society

COVID-19 Pandemic Protocol for Facility Users

General Information

- ❖ Anyone entering the Beaumont & District Agricultural Society (BADAS) Fairground **MUST HAVE permission** to do so.
 - For gardeners, this means having registered and paid the fees to rent a plot(s) for the season.
 - For equine users, this means having **booked a time slot** to use either the Cross-Country Course and/or sand-ring arenas.
- ❖ Comply with [Alberta Health Services public health orders](#) for isolation if you are symptomatic, travelled, or have tested positive for COVID-19. These public health orders apply to all public areas, including community gardens and other facilities at the BADAS Fairground.
- ❖ To sum up, **STAY HOME** if you or anyone in your household is sick, especially with respiratory issues, or is on isolation protocol.
- ❖ For more information please reference [COVID-19 Public Health Order Violations](#).

Fairground Access

- ❖ BADAS Fairground staff will unlock the gates in the morning and lock them again at night. **Hours of Operation** will be: **6:30 AM to 9:00 PM**. **Do NOT touch** gates, chains, or locks!
- ❖ Until further notice, only GPCG Team members, BADAS management staff, and Board members will have the 2020 combination code for the gate, water pump, fuel can, and garden equipment locks.
- ❖ **Wash hands when entering and leaving the Fairground**. A hand-washing station has been set up along the road opposite the GPCG entrances.

While at the Fairground

- ❖ Follow AHS guidelines for physical distancing: Minimum **2-metre distance** between individuals at all times. Exceptions to the 2-metre rule will be allowed for people from the same household.
- ❖ Gardeners – **Maximum of 15 people** including friends and family at any one time in the garden area. If your presence in the GPCG will push the number over 15, wait in your vehicle in the parking lot until enough people have left the garden area. Such situations will be rare based on past usage.
- ❖ Equine Users – **Maximum of 15 people** including riders, coaches, parents, and entourage at any one time in the riding facilities. BADAS will initially control numbers through bookings.
- ❖ Be aware of any common surfaces, e.g. equipment handles, tools, etc. that are touched. Sanitize these surfaces after you are done with the tool or whatever was touched.

Follow-Up

This is a 'learn-as-we-go' experience for BADAS. Changes to the protocol will be made if:

- ❖ AHS and/or the cities of Beaumont and Edmonton change public health orders (they are evolving).
- ❖ Scheduling is needed to control numbers of people using the GPCG.
- ❖ Physical distancing, hand-washing, and sanitizing protocols are not being followed.
